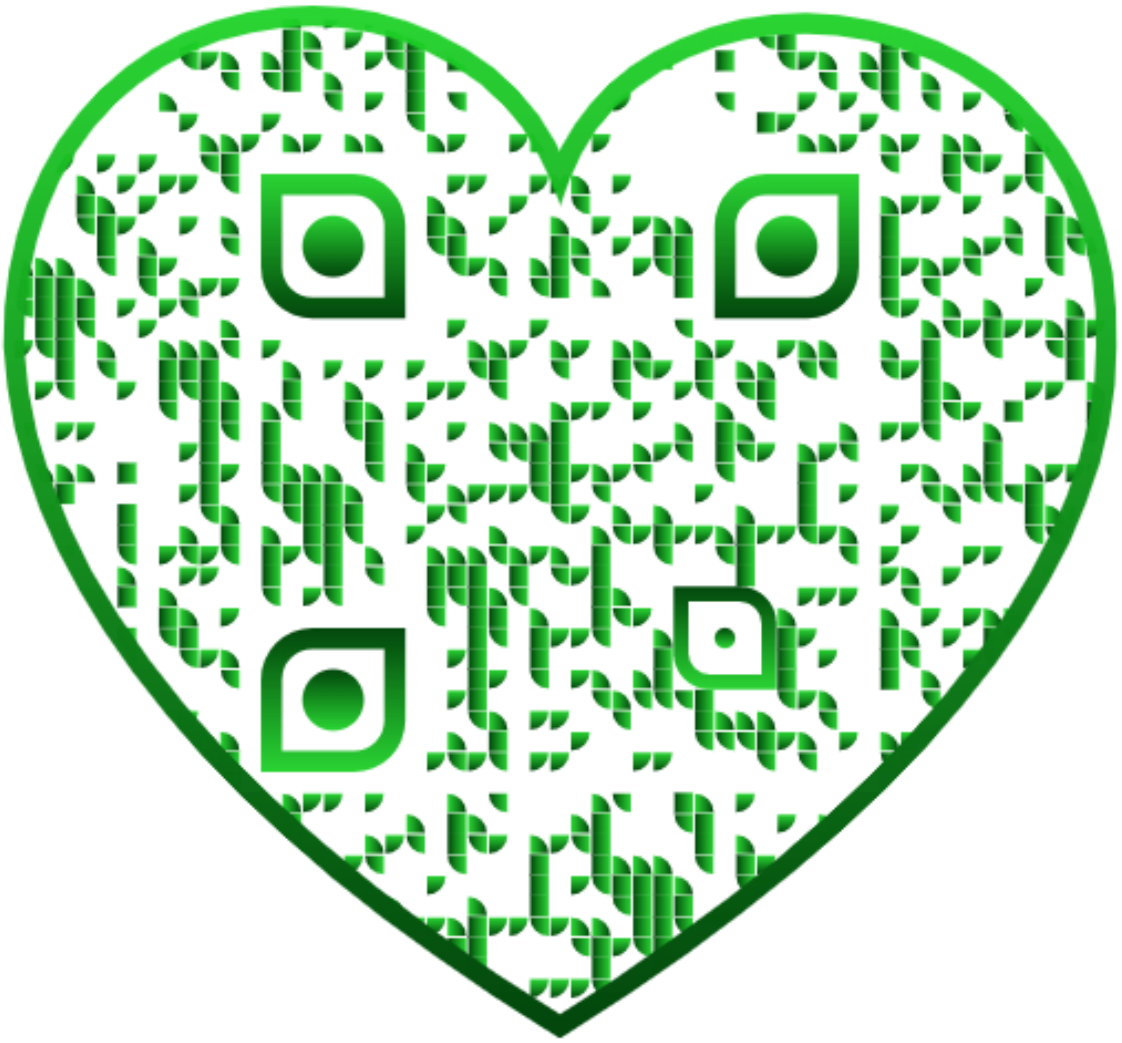
Atlantis and Crystals of the Past and Today

Theories about Atlantis mention the extensive use of crystals by Atlanteans. Crystals varied in size, color, and harmonic frequencies. Crystals follow harmonic frequencies and could be used with an instrument that looks like a tuning fork.

Atlanteans allegedly harnessed the energies of the pyramids, using harmonics linked to crystals to that end. As we have the Great Pyramid at the center of the planet linked to the grid matrix that creates our reality, so, too, did the Atlanteans. Their pyramid allegedly sunk to the bottom of the Atlantic Ocean which is a metaphor about returning to the collective unconsciousness or source of creation. Reality is a Consciousness Hologram.

Atlantean Seed Crystals were allegedly flawless and grown as we grow flowers today.

Atlantean crystals received power from a variety of sources, including the Sun, the Earth's energy field grid system or from each other. Grid points are often marked by pyramids. The Atlanteans used this energy, combined with crystals, to transmit energy from one pyramid to another or, as aliens, to enter and leave the planet.



Atlantis and Crystals of the Past and Today

Depending on the tilt of the Earth's axis at a particular time of the year, one pyramid would function to intensify and transmit energies to other pyramids which would then act as receiving devices and would disperse energy as it was needed. The opposite would apply when that pyramid was at an unfocused point to their celestial alignment, when other pyramids would be used as transmitters. It was an intricate matrix crystal grid system.

Uses of Crystals

- Healing, childbirth, crossing over
- Meditation, awakening, increasing psychic abilities
- Increasing mental capacity and clarity of thought
- Science and technology
- Dematerialization - teleportation - telekinesis
- Magnetic force fields
- Libraries - storing records and other knowledge, much like a computer
- Botany and agriculture
- Weather Control
- Huge crystal tower power generators
- Communication - Crystals have the ability to transfer energy, to retain it, to maintain its intensity, to focus and transmit it over great distance to similar receivers as are equal or comparable to the transmitter. The larger stones, called Fire Crystals, were the central receiving and broadcasting stations, while others acted as receivers for individual cities, buildings, vehicles and homes. On a higher spiritual level, rooms made of crystals were places where the Initiates left their bodies in the Final Transcendence, often never to return.

Edgar Cayce

One of the most detailed descriptions of the Atlantean use of a mysterious instrument called the Great Crystal was given by Edgar Cayce, who mentioned it many times. The crystal, he said was housed in a special building oval in shape, with a dome that could be rolled back, exposing the Crystal to the light of the sun, moon and stars at the most favorable time. The interior of the building was lined with non-conducting metal or stone, similar to asbestos or bakelite, a thermosetting plastic.

The Crystal itself, the Tuaoi Stone, or Firestone, was huge in size, cylindrical in length, and prismatic in shape, cut with six sides. Atop the crystal was a moveable capstone, used to both concentrate incoming rays of energy, and to direct currents to various parts of the Atlantean countryside. It appears that the Crystal gathered solar, lunar, stellar, atmospheric and Earth energies as well as unknown elemental forces and concentrated these at a specific point, located between the top of the Crystal and the bottom of the capstone.

The energy was used for various purposes. In the beginning it was used as purely a spiritual tool by initiates who could handle the great energy. The early Atlanteans were peaceful people. As they

developed more physical material bodies, they used the crystal to rejuvenate their bodies and were able to live hundreds of years while maintaining a youthful appearance.

Later the Great Crystal was put to other uses. Currents of energy were transmitted throughout the land, like radio waves, and powered by these, crafts and vehicles traversed the land, through the sky and under the sea at the speed of sound.

By utilization of other currents originating from the Great Crystal, the Atlanteans were also able to transmit over great distances the human voice, and pictures, like modern television. In the same manner, even heat and light could be directed to specific buildings or open arenas, giving illumination and warmth by seemingly invisible means.

In this timeline, in the Bermuda Triangle, on the ocean bottom where the ruins of Atlantis now exist, the energy build-up in the sunken and damaged Fire Crystals can periodically trigger materialization of anything.

The Story of the Fall of Atlantis and the Atlantean use of Crystals

The Fall of Atlantis & The Master Temple Crystals of the Sacred "ARK"

Atlantis is indeed the missing link of Pangaea, located in mid Atlantic. We will share with you its story in detail below. But be aware Masters, not all of the great Temple Crystals of Atlantis were lost. Indeed some of you were involved in their rescue.

The first Temple Crystal saved was the **Blue Crystal of Knowledge.** It is below the earth below the crown center of the Vortex, termed Talimena Ridge, in a sacred chasm, built long ago. The Blue Crystal of Knowledge stands erect, forty-eight feet in height and twelve feet in diameter. It pulses and exudes a rainbow of silver, turquoise and cobalt blue as it activates in sacred contract. It holds the multidimensional wisdom and knowledge of the ages. The second one saved was the **Emerald Crystal.** It is now beneath Mt. Maga, the heart centre of the Crystal Vortex of Arkansas. It is approximately 20 meters in height and 5 meters in breadth. The third Crystal placed in the Ark was that of the **Platinum.**

The **Platinum Crystal** beneath the Magnetic Mount near the area of Eureka Springs awakens in 2011 on the 11-11-11. The Platinum Crystal is truly clear in color, but it projects a shimmering field of platinum silver consisting of sub atomic particulate termed Bio-Plasma. The Bio Plasma is a conscious field, self-aware. The Bio-Plasmic Field emitted by the Platinum Crystal harmonizes the gateway spectrum of physical matter and anti-matter. The Platinum Crystal is enormous, over 100 meters in height and far deeper below the surface than the others. Its reach is Cosmic and its energy by 2012, will encircle and span the planet, networked with the other crystals and disseminated through the Crysto Sun Disc.

Revisiting Atlantis: The True Legend of the Fall

Dear Ones, these crystals were saved from destruction, and now you are offered the memory of why. For such magnificent crystal beings offer all of you so much. The expansion, the sacred

completion applies to ALL! It is time to remember who you were, in order to become all you are in this awakening time, this return to the Quantum Crystalline Field. Atlantis was a Golden Time, a magnificent epoch that was betrayed by its unseemly end. And so we tell you the true history of that demise.

You see, Atlantis existed for over 200,000 years. The vast majority of the Atlantean times were epochs of Light! Only the final phase, the period from 17,500 BC to 10,500 BC was in your terms, a dark era, but one rich in lessons.

The Golden Age

We tell you in fact that the Golden Period of Atlantis was the highest level of Light Consciousness ever achieved on the Earth Plane in any advanced civilization; higher than Lemuria, higher than Mu, higher than Rama, higher than Ignacious. It has become somewhat fashionable to consider Lemuria as being the utopian civilization, and though they did achieve a relatively short lived phase of high consciousness, most in that era were not truly in physical bodies, rather in Devic-like etheric states, and did not face the difficulties required of the physical Earth stage. Indeed Lemuria never achieved the highly advanced level that existed in that Golden Phase of Atlantis from 40,000 BC to 18,000 BC. A time when Gods walked with Men, and all knew joyful expression It was the hallowed time when many of you walked as Star Children, and later chose biology and the lesson cycles of reincarnation on the Blue Planet called Earth.

So when you consider Atlantis, DO NOT only remember its sad demise! It was but a short phase of the magnificent antediluvian world, yet it must not be forgotten, so very much is to be gained by understanding the final phase, and Dear Ones, it is time to remember.

The Atlantean Hologram

So we speak of once mighty Atlantis, and we speak to all of you, for Atlantis is a great hologramic lesson, and ones whose time has returned, for the memory of Atlantis is not just a healing. Indeed, for some it is a requisite healing, a necessary cleansing, but for others it is also a benevolent empowerment. It recalls a time when you walked in wisdom and harmony. Regardless of your myriad roles in Atlantis, and Dear Ones, 70% of all on Planet Earth at this time experienced physicality there, Atlantis now calls to you. And the call is not just for those of you of the Law of One, it is equally called to the Aryans, to the Sons of Belial. Indeed many of you experienced lifetimes in both ideologies. Does that surprise you?

The Deluge of 17,500 BC - Downward Spiral of the Final Phase

The time is after the second deluge, when the utopian Golden Age subsided and Atlantis split into 5 islands. The three major islands were known as **Poseida, Aryan** and **Og.** The two smaller Islands were under the rule of the Aryan Race, and were known as **Atalya** and **Eyre**. And so in the days after the second break up of Atlantis, the benevolent government rule by a Kingdom passed into the phase of a Confederation - State Governments, in your present terms that ruled each of the Islands. An aristocracy of sorts evolved that consisted of two opposing ideologies. The two major components of these were the **Atla-Ra** Scientist Priesthood of the 'Law of One', based

predominantly on the **Isle of Poseida** and the **Aryan Race** of 'The Sons of Belial' based on the **Isle of Aryan.** The Island of Aryan was the most populated and exerted influence and political control over Og, Atalya and Eyre.

The Isle of Poseida was the planet's most potent vortex portal complex at the time of Atlantis. The Poseida grouping and Isle housed the Temple of Healing, the Temple of Sound, the Temple of One, the Temple of Regeneration and the Temple of Knowledge. Poseida housed most of the major centers for higher learning. These were placed on Poseida because of its advantageous location within the geodesic grids and its proximity to beneficial electromagnetic energies that spiraled upward from the Earth's core. An incredibly potent healing spring flowed on Poseida, near the Temple of Healing, and its lore spawned the myths of the 'Fountain of Youth' passed down by the indigenous peoples of Florida. It flows yet into the oceans near Bimini.

The tall ones, the Golden Race of Atlantis, of Pleiadean seed were centered in Poseida, these ones averaging 10 to 12 feet in stature. These were a gentle race of giants, involved in the cultural, artistic and educational pursuits in the heart of Atlantis. Poseida was also the headquarters and nucleus of the crystalline power grid and interdimensional tunnel system. The most advanced, complex and beautiful of the crystals were here. They were of Arcturian and Sirian-Pleiadean construct, a living amalgam of many crystalline forms imbued with an alloy of platinum and gold.

The crystals were housed in magnificent Temples, some built of marble, others of crystalline sheets of beryl, corundum and diamond. The City of Poseida was the capital city of the Island, and was called the Emerald City. (Its bio plasmic field was projected into a shimmering glowing Aurora of Emerald Green, visible for miles). The Atlanteans had perfected, with Arcturian technology, the ability to grow crystals of every structure and essence in an accelerated growth within the underground crystal beds of Arkansas, Tibet and Brazil, all being Atlantean Colonies, accessed through the “Interdimensional Tunnel System”.

The Poser Fields & The Crystal Satellite

Throughout Atlantis, Power Grid Crystals, called “Posers”, were triangulated and connected through an alloyed gold-copper rod under a spherical dome that could be angled to receive specific stellar, solar and gravitational energy waves. This was the system used to power homes, offices, media, and theaters, manufacturing concerns, medical centers, schools and businesses. The Poser System was received in each structure by receiving-crystal units of various sizes. The Poser System was also able to receive specialized refracted light and feed it into the Ley Energy System for use in the Interdimensional Tunnel System and feed crystalline light into conductive earth currents to raise the frequency into a semi- aware electromagnetic plasmic field of benevolent energy capable of retaining spiritual frequencies.

A great Crystalline Satellite, referred to as the “Second Moon” of Atlantis, floated above in the skies and received, amplified and reflected refined energy back to the crystals for various beneficial purposes. It served both the Posers and the Master Crystals used in the Temples. Specialized energy fields were projected into agricultural and crystal growing areas to amplify and accelerate growth, as well as into universities, hospitals, schools, offices, factories and work places

to create a sense of well-being and invigoration for the workers and students. We will speak more of this 'Second Moon 'later in this assay.

Now, the Temples were astonishing works of sacred geometry and stunning architecture. Many of the great temples were covered in a dome of projected crystalline amplified light somewhat like a glowing force field. Others were set within Pyramids degreed at very specific angles. The energy fields projected above both the spherical domes and the pyramids were of various colors and glowed in day and night like the Aurora. These were varied according to the purpose of the Temple complex, and the colors were obviously more clearly visible at night.

Some Temples projected domes and fields of vibratory light and resonant sound frequencies that amplified the senses and chakras, others amplified the receptive learning ability of the mind, and others enabled multidimensional consciousness, communication and transport. The pyramidal form was used primarily for multi-dimensional receival and transmission. The dome spheres were used to amplify the fields received for specific purpose. Most of the major populace areas and cities during the Golden Age of Atlantis had crystalline power domes of energy plasmic fields above them.

When observed from a distance, these energy plasma fields would appear as if they were a tangible glass, but they were not solid, rather subatomic plasma and composed of what is termed bio plasma. These were regulated by the amazing magnanimous glowing Platinum Crystal of Bio-Plasmic Interface. The crystal itself was transparent but the field it projected was a luminescent platinum in hue.

Poseida

Each of the Master Crystals, and there were 12, were networked with a series of satellites. After the Second Deluge, only the Capital City of Poseida had a full crystalline energy dome, and it was an incredible emerald green color.

Prior to the deluge of 17,500 BC, most major cities, including Meruvia, the Capital of the Island of Aryan had such power domes over the perimeter. The one in Aryan was a soft ruby red.

In the Golden Age of Atlantis, the Pyramids were three and four sided, depending on their utility and generally made of marble, granite and complex crystals. The three-sided pyramids were used as antennas to draw and amplify energies and fed them into the Poser grid to power homes, factories and create energy fields for various utilities. The crystalline satellite was used to reflect the angled stellar energy waves into these triangulated grids. There were over 100 of these triangulated pyramidal grid complexes.

They were set up in concentric triangulation patterns all over the planet. They established a hemispheric grid network of crystalline and electromagnetic energy dividing the areas of Atlantis, America, Africa, Mediterranean Europe and South America into different demographic centers-for powering population centers, and to modulate weather patterns and tides. The areas of Mongolia and Tibet were also part of this complex, connected by interdimensional Ley tunnels. But the largest groupings of these were in the homelands of Atlantis.

Atlantis and Crystals of the Past and Today

The four-sided pyramids were essentially Temple complexes set as full octahedrons and used for healing, learning, regeneration and spiritual purposes. These were not triangulated, and generally sat on hilltops or along the coastlines to receive both telluric and celestial energies. The lands below the center plane were excavated to allow for the downward pyramid of the octahedron design construct, thus connecting energetically to both above and below.

The 'Law of One' contingency of **Poseida** were devoutly spiritual people and sought equality among the people and a unification of Oneness. Their society was feminine Matriarchal in the sense of nurturing. They were not seekers of power, rather of harmony. They were a tall race, their skin appeared toned as a golden hue, but was very translucent. It was in fact their auric projection that glowed golden.

Their auric fields were visible to all. Thus the stages of spiritual mastery were immediately discernable by the colors and size of the Auric Mer-Ka-Na. The highest among the Atla-Ra exuded Mer-Ka-Ra, the energy of the Avatar. They were able to operate in complete consciousness of multi dimensionality, to manifest and regenerate at will. As such they cannot be truly compared to present Humans, their bodies were luminous and the degree of physical manifestation was far less dense than Humans in the present Age.

In Mer-Ka-Na and Mer-Ka-Ra format, the Masters of the Atla-Ra did not truly consider themselves of the Earth. The Mer-Ka-Ra field of the Avatar, even in physical manifestation in 3D, was primarily in Earth via 12D. They required very little food consumption as their bodies were bio-plasmic in nature. Thus the longevity, for they were above linear space and duality time.

In their wisdom and nature, they were quite detached from the 3D density aspect of the Earth. They existed above the polarity, yet were in a form of Light physicality. That detachment above polarity is in part, the reason they did not karmically oppose the Aryan decline into physical density, as the Aryan 'Sons of Belial' became engrossed in what may be termed military-corporate power lust.

Although much technology and quality of life had been lost in the prior two breakups of Atlantis (the first in 58,000 BC, the second being in 17,500 BC) technology still remained at an advanced level. Yet the harmony experienced in the Golden Age of Atlantis spiraled downward after the break up into islands in 17,500 BC as the islands grew into separately governed entities, which held to very differing ideologies in the initially chaotic and difficult period of reconstruction immediately after the break up. Poseidon remained within the contingency of the Spiritual Law of One, while the people of Aryan became gradually engrossed in power and materialism.

Poseida and the Atla-Ra

A highly disciplined and evolved sect of Scientist Priests held the technical wisdom and expertise of managing the Crystal power grids. The vast majority of Atla-Ra were of the tall Golden Race, but there were also members from the Bronze, White, Lemurian-brown and Cetacean Races. At that time there were still Avatar level Cetacean Dolphin Beings that walked on two legs. These highly benevolent Dolphins verbally communicated and breathed air in a similar fashion to Humankind. The Avatar Cetacean were Golden in auric projection, and are the source of those termed the 'Golden Dolphin'. The Golden Dolphin were harbingers of the aspect termed

Matriarchal, an energy that you term Feminine Divine, although they were primarily non-gendered in the physical sexual sense of the present paradigm.

The sect of Scientist Priests were referred to as the **Atla-Ra.** The Atla-Ra maintained the highest standards of consciousness and were able to continue vibrating at very high frequencies of consciousness, at and above the level of 12th Dimensional Light & Energy, remaining very pure and resonant with the true 'Oneness' concept of the Creator/God. They sustained higher dimensional-telepathic contact with the advanced Space brethren from the Pleiades, Arcturus, Andromeda and Sirius.

The Atla-Ra Priests were highly disciplined, revered and traditionally separate, above and exempt from governmental controls, and thus kept the knowledge & senior management of crystal technology largely in the wise & benevolent hands of the Sect, although there were some technicians and crystal engineers from the Poseidon populace involved who were not in the Atla-Ra Sect. The Scientist Priests of Atla-Ra were both male and female and were capable of great life spans, both through the regeneration of mind power and through the technology of same in the Temple of Rejuvenation. Many lived lifetimes in the same biology for 6,000 years, some to 12,000 years! Thus was the technology preserved through this Holy Sect. Many brilliant Souls were among these. The entities you know as Galileo, Isaac Newton, Einstein, Tesla, Edison, Marcel Vogel, and DaVinci were among the Atla-Ra. Tyberonn and Oneronn were part of this group of Scientist Priests, who lived very long lifetimes.

Many of you, especially your artists have great recall of the Capital City of Atlantis of Poseida located on the Island of Poseida. It was termed the “Emerald City” because of the glowing green light dome projected over it. Some of your artists in fact have made renditions of the City that are quite accurate. It was an exquisite marvel of architecture, culture and engineering, by far the most beautiful metropolis that has ever existed on your planet. It was breathtaking. The City, named Poseida as was the State, was composed of a series of concentric walls and encircled by flowing sea-green canals. It was full of beautifully constructed Temples, Universities, Theatres and Museums.

At the very center was a hill, and on top of the hill the majestic and stunning Temple of Poseidon, which was visible from everywhere in the Holy Emerald City. Inside the Temple was a massive gold statue of the God of the Sea [Poseidon] showing him driving six winged horses made of extra-terrestrial platinum. The statue was embellished with precious gemstones of every color and type. The Temple was octagonal and along each of the eight walls were built convex enclosures with platforms for amazing crystals that stood twelve feet high and glowed like transparent diamonds. Poseida had been the least damaged of the major Atlantean cities after the breakup of the original single continent into islands in 17,500 BC, and was still of a very high frequency and quality of life.

The Isle of Aryan and the Industrial Complex:

The Isle of Aryan was the largest of the Atlantean Islands and the most populated. Aryan was the commercial center and yielded the most influence from the economic, agricultural and military perspective. After the “Second Deluge”, Aryan was significantly damaged and the infrastructure

required a chaotic stage of rebuilding. In the process, the State became controlled by an elitist, affluent 'White' Race, who gained control of the economy, military powers and Island-State government, even though the majority of the populace were themselves of the Bronze or Red Race. From Aryan grew a corrupt power-minded aristocracy who sought to block the 'Law of One' and utilize Atlantis's technology for control of the world, this through the utilization of crystalline energy for weaponry, and use of genetic science for development & retention of an inferior race to serve as workers and soldiers.

The genetic engineering was based in Meruvia, on Aryan. It had originally been used for benevolent purposes, for seeking improved physical vehicles for those that had incarnated into physical bodies that mutated into half man half beast abominations. The genetic work had been processed and developed on Aryan and was used to remove appendages, claws, feathers and reptilian skins and scales. This was done in the Temple of Purification, somewhat of a specialized medical centre. Again, we emphasize that during the previous Golden Age of Atlantis, its utility had been quite benevolent. Tremendous genetic advances were made and a great understanding of cloning and adjusting physical limitations for betterment came in responsible, ethical utility.

In the chaos of the reconstruction period, genetic engineering came under the control of the “Belial” group, and then denigrated into corrupt uses of greed and power. The genetic engineering began being used for dark ends, in creating a race of worker-slaves and hybrid man animals. Just as in Nazi Germany it was conveyed to the masses as development of a 'Pure Race'. In fact many of the genetic scientist were initially kept unaware of what their research and development work was being used for until it was essentially too late for them to stop it. Some of you carry great guilt to this day as a result of this work.

The Law of One and The Sons of Belial

This use of genetically engineered servant classes led to the great rift between the Atla-Ra Priesthood-led Race of Poseida following “The Law of One” and the Aryan Race known as “The Sons of Belial”, the latter of which became so engrossed and hardened in the materialistic ambitions of the industrial machine that they lost sight of the spiritual ethics that had prevailed over the continent of Atlantis in the previous Golden Era. Literally hundreds of thousands of hybrid mutations were created to work the fields and monstrosities were created with controlled minds to robotically do the bidding of their 'Masters'. The agro-industrial society of Aryan became quite dependent on them.

Souls became trapped in cloned bodies termed 'Things' and 'Others' with genetic lobotomies and nullified, sexuality and emotional abilities. Many who were trapped in monstrous or sub intelligent androgynous Human bodies, still carry that horrendous pain of being imprisoned in physical embodiments that allowed for no advanced learning, spiritual growth or emotional expression.

We tell you that the Beings you refer to as Sasquatch, are remnants of Human-gorilla genetic engineered mutants, created for heavy labor, by the Aryans.

Genetic engineering for commercial purpose was highly opposed by the Spiritual Atla-Ra and Poseidon's of the 'Law of One'. The Law of One found it a form of cruel slavery, and morally

abhorrent. The Law of One remained a nurturing, matriarchal spiritual culture, while the Aryan grew into a powerful military corporate society, dominated by the upper class.

For several millennia the two ideologies remained head-locked over this issue and governmental agencies were in a state of delicate impasse. The Poseidon's were far too cultured and gentle in nature to attempt to fight the Aryans and sought to educate them and spiritually influence them into changing their ways. The Aryans, who outnumbered the Poseidon's 3 to 1, dared not attack Poseida lest they have the crystalline energy that powered the Nation shut off.

Colonial Wars:

In the interim, outbreaks of war erupted between the Aryan controlled Atlantean military as the former colonies of Atlantis located in the Mediterranean areas broke traditional ties and developed their own independent governments. The colonies, particularly those in Greece and Turkey, saw the change from the utopian Atlantis to the military-fascist state controlled by Aryan and sought to break away. Although the Aryans had the military edge, the Mediterranean States did not succumb, and regional colonial wars raged on with neither side able to dominate the other. Factions within Aryan increasingly sought to use crystal energy to quell the adversaries. This was firmly refused by the Atla-Ra and 'Law of One' populace of Poseida.

Several futile attempts to terrorize the Poseidons were attempted by the Aryans, and each was quelled. The Poseidons retaliated by shutting down the crystal-fed power systems and thus negating the Aryans. The Aryans responded by stopping food supply and manufactured goods. A great impasse ensued.

The Atlantean Unification Congress

In a great deceptive scheme, disguised as a plan for unification, the Aryans approached the Poseidons with the formation of a renewed National Congress to work out their growingly tense differences and bring harmony to Atlantis. Representatives from the Law of One were sent along with the representatives from the Sons of Belial. The Congress was formalized with an equal amount of representation from the two parties. Within short order a federation of sorts was sanctified with the promise of greater harmony. It appeared for several decades that the promise of change and betterment might come about from the National Congress. The Poseidon's were encouraged and many of them let down their guard. The Atla-Ra Scientist-Priesthood remained wary of the motives and sensed deception.

Initially the National Congress did improve relations and many minor superficial laws that promised unity were set in motion. Yet the primary points of opposition, the genetic slavery and crystal energy management remained unresolved.

However, from within the Aryan “Sons of Belial” had risen a hypnotic charismatic leadership who seduced the masses in Atlantis into believing they were the answer to returning Atlantis to its lost Golden Age of prominence and abundance. The Leaders of this group were the souls that you know as Hitler and Himmler, indeed the supremacist Nazis of your World War II. Large militaristic legions were formed and gained the edge in covert political persuasion and power. The hybrid

mutants were used to terrorize those who opposed them in Aryan and Og, and on one occasion this was even futilely attempted in Poseida.

The powerful Aryan contingent were masters of manipulation and media. They presented well thought out arguments that masked their true intentions and promised mutual compromise. The propaganda seemed quite feasible on the surface and convinced many including moderates and some from the Poseidon "Law of One" of its hope for harmony. In what appeared to be a great opportunity for resolution, a Law was proposed by the Aryan Belial group to bring the genetic engineering, heretofore controlled by the State of Aryan under federalized control, and in return, bring the Crystal Poser System under the control of a joint Governmental Agency. A great discussion and debate occurred under great national scrutiny. A vote was set, but failed in the Congressional vote.

Seduction & Betrayal:

However, a compelling compromise was offered by the cunning leadership of the Aryan "Belial Group", which allowed for the Law to be passed on the basis that a Council staffed with 5 Poseidon's and 4 Aryans would head a new Government Agency for Federalized Crystalline-Energy control. The fact that the "Law of One" Group were given apparent majority control of the Council made the plan seem very promising to the populace of Poseida.

The Law allowed that no changes could be made without majority consensus of the Council, but included the caveat that while the Atla-Ra of Poseida would remain in Departmental Head positions, they would no longer be exempt from governmental controls. A training program was included that would allow engineers from both parties, outside the Atla-Ra, to be trained and taught the complex engineering. Initially, despite the wariness of Atla-Ra, the system appeared to be working and bringing a better harmony.

However, within two years, the wars in the Mediterranean roared back in full escalation, and the rebelling Colonies seemed to be gaining the advantage. Pressure mounted to use crystal beams for war purposes under the guise of national security. A discussion, debate and vote was scheduled for the Governing Council. National security was touted and a misaligned sense of manipulated patriotism swept the land.

Then the deception rolled into effect. To the great shock & chagrin of the Poseidons, one of the Law of One members of the Council, switched positions. He was neither of the Atla-Ra, nor the Golden race. He had risen politically as a charismatic leader, a trusted negotiator, who had pledged allegiances to the Law of One and gained their full confidence. He had been targeted and seduced by the Aryans, and fell victim to his ambitions.

In the aftermath, this one felt great remorse, and spent subsequent lifetimes attempting to make up for the mistake. For truly he did not foresee the catastrophic ending, and had allowed himself to be blindly compromised under promises of power and position.

Dear Ones, such is the illusion of power. You see when one gains power that which may seem right can often be an illusion of ego. Each on the road of Mastery must eventually decide between

power and love. Even the one you call Hitler thought the Master Race scenario would enable a better future for Earth, with one supreme physical embodiment being the single eventual Race that all Souls would reincarnate into, reducing disease, and eliminating racial division by having only one “Master Race”.

Even the one you call Judas in your biblical allegory thought that by placing Jeshua ben Josef [Jesus] in detention, he would be forced to use his “Divine Powers” to reveal his Mastery to the world! Indeed the paradox is that what you term as 'Power' is often the polar opposite of 'Love'.

Do you see how ego and power can deceive? Do you? Ego and self-aggrandizement oft seduce even highly evolved Souls, and inevitably leads to downfall.

Thus through 'legalized' governmental control, the use of the crystal power complex & grids came under governmental control under the Aryan “Sons of Belial”, and sadly could not be reversed.

The Second Moon of Atlantis

That which was known as the 'Second Moon of Atlantis', the Crystalline Poser Grids and Fire Crystals came under governmental control, and their usage became altered as the Aryan insider knowledge of the programming grew. The Atla-Ra were able to defer the usage initially for war prurposes, but in time were stymied.

Now as we have mentioned earlier, that termed the Second Moon of Atlantis, was in fact a massive crystalline satellite. It was of Arcturian construct and managed by the Priest Scientists of the Law of One. The Crystalline Satellite was an enormous unmanned sphere of brilliant engineering, approximately five miles in diameter. It had been in use since the Golden Age of Atlantis, and served myriad benevolent purposes. It amplified and controlled the various crystal beams sent from the Fire, Healing and Energy Crystals. It was somewhat of a computerized macro-chip that refracted, amplified and reflected powerfully refined beams of energy for use in agriculture, weather control, tide control, healing temples, regeneration temples and the enhanced Ley-energy systems generated by the Crystal Poser System. It loomed in the skies over Atlantis and appeared as a golden “Harvest Moon”, and thus was known as the “Second Moon” of Atlantis. A rainbow kaleidoscopic energy band of antigravity plasma swirled around the sphere, and often appeared as what you now term the Aurora or Northern Lights. The Satellite Crystal Moon did not orbit the Earth, it moved as programmed, self-directed, constantly shifting locations in order to perform its myriad tasks over Atlantis, Africa and the eastern seaboard of Brazil.

After the Crystalline Grid complex legally came under federalized Aryan control, the Belial group integrated their own technologists into the engineering group, quickly replacing key Department Heads with their own. The Atla-Ra attempted to block their attempt to reprogram the Satellite for war usage, explaining that overloading the Satellite would dissipate the antigravity field that maneuvered it, and a catastrophic crash could occur. The Aryan Scientists debunked the claim. Some of the Atla-Ra were threatened and removed, others began to mysteriously disappear. Many of the Poseidons felt intimidated and powerless as the Governing Council allowed for the Satellite to become a 'strategic defense weapon', certain it would function as programmed, and bring a quick end to the Rebellion Wars in the Colonies.

Atlantis and Crystals of the Past and Today

The Aryan Belial Scientists, with the Council approval, reprogrammed a system bypass and began sending destructive thermal light-beams used to initiate volcanic eruptions and massive earthquakes against the Colonies and Nations who refused to give into their demands. These were aimed in the areas of what is now Greece and Turkey, and caused great devastation. Indeed it gave the zealous Aryans the battle advantage they so fervently desired, and they jubilantly increased its usage, with support of most of the populace.

The Beginning of the End

The Crystal "Second Moon" began to 'overload', weakening the anti-gravity field that kept it afloat. The Atla-Ra understood the implications of what would soon occur when the programming crashed, but their pleas to the Council continued to be ignored.

After several months of prolonged war use, the Satellite began to erratically swerve and shift, and power blackouts began to occur. Tireless attempts to correct it were unsuccessful. The Atla-Ra were asked to lend support in correcting it, but most refused. Some agreed to try and stabilize it to prevent the impending disaster. All attempts failed. The Aryan-led National Council refused the suggestion to incinerate the Satellite, disbelieving that it would crash, and held to minimizing the effects of an impact even if it did.

Relocation of the Crystals

Tyberonn & Oberonn gathered an inner group of loyalist within the Atla-Ra and Law of One to plan a circuitry disconnection & imminent relocation of the fire and energy crystals to various 'safe' locations before the impending crash of the master Satellite. This was done with the technology & assistance of those from the Planet Sirius B within the Sirius Solar System.

The relocation by the Atla-Ra Scientists of the precious crystals was very risky, and required careful planning and great secrecy. It had to be done before the crash of the 'Second Moon', and without knowledge of the Governing Council.

Simultaneously other trusted members of the Atla-Ra worked furiously and hastily gathered data recording crystals, crystalline skulls and engraved historical records for secure placements in Yucatan, Alexandria and Giza. This was only partially accomplished, so much was not able to be saved.

Atlantis had numerous Power Crystals located throughout the 5 Islands and along specific relay routes of the underground labyrinth system. The Atla-Ra knew that once the modulated 'motherboard' of the Crystal Moon Satellite lost its antigravity field, it would crash in a huge explosion and its crashing would subsequently wreak havoc on the Major and Poser Energy Crystals, creating catastrophic secondary explosions of a nuclear-class within hours or days of the crash. The Atla-Ra were only too aware of the earthquakes and tsunamis that would occur as a result.

The Atla-Ra with assistance from the Sirian-Pleiadean Alliance of the Galactic Federation wanted to insure the Master Crystals would not be destroyed or used for any further negative purpose, and

be saved for a time when Mankind could use them as they were intended. They understood the power required to transport them would be lost after the crash of the Second Moon Satellite, and that urgent expediency was required.

Seven of the enormous Primary Crystals and two slightly smaller but incredible Arcturian crystals were relocated within the hyper-dimensional transport systems of the underground tunnel system with help from the Sirian-Pleiadean Alliance. Three huge Primary Crystals were relocated to the Atlantean crystal fields of Arkansas, two were relocated to the underground crystal farms of Brazil in the areas of Bahia and Minas Gerais, one was relocated to an underground cavern [Telos] below Mount Shasta, and the great fire crystal was placed underground in a chasm below the Bimini Bank in the Sargasso Sea. The two sacred Arcturian Crystals were located in the caverns below the area of Tiajuanaco, Bolivia, near Lake Titicaca.

All nine were put in dimensional locks, essentially powered down into energetic dormancy through the technology of the Sirian-Pleiadean Alliance. Many other magnificent Temple Crystals were lost. The nine that were saved, were protected in respect of their priority and importance. The rest, in your vernacular is history, poignant lost history from your mainstream perspective. Truly the paradox of the forgotten history is that it contains the most purposeful of lessons!

Indeed after a few months of being utilized for the thermal 'Death Ray' technology, the great Crystal Moon Satellite overloaded, its antigravity cushion weakened and it crashed with the accelerated velocity of a massive comet in a horrific explosion that devastated most of the Island of OG and critically weakened the tectonic stability of the whole Atlantean tectonic plate, vaporizing massive sections of substrata. The great Crystal Satellite shattered into billions of fragmented crystalline shards, which now fill the deep trenches of the Atlantic. Massive clouds of dust and smoke erupted, hiding the Sun. Waves of earthquakes and tsunamis devastated the Island and sent great tidal waves over two thirds of the Isle of Aryan. Within minutes the remaining power stations exploded with the strength of nuclear bombs. The remains of one such crystal power station explosion can be seen to this day in the area of northeast Brazil called 'Sete Cidades'.

The rest of Atlantis, and the eastern coast of Brazil and the western coast of Africa were devastated with subsequent earthquakes. Panic and havoc ensued for 3-4 weeks as the remaining dry areas shook and landmasses collapsed into the sea, creating enormous tsunamis. The land bridge that connected Poseida and Og to the Yucatan remained above water initially and was literally filled with hundreds of thousands of Atlanteans frantically attempting to escape in a horrendous panic filled exodus. Every type of sea going vessel was filled with the surviving terrorized refugees.

And then in one shattering gasp, the remaining lands collapsed downward into the sea. The displaced seas that became known as the “Great Flood” sent dozens of enormous tsunamis that spilled over the Americas, Africa and Europe. Only a few mountain tops of Atlantis remained dry [The Azores]. But the survivors were distraught, traumatized across the globe. Very few places were unaffected. A downward spiral had begun.

It is a dramatic scene that has for many many lifetimes plagued and darkened the memories of many of you, who were indeed a part of it. Dear Ones, it is time to let it go.

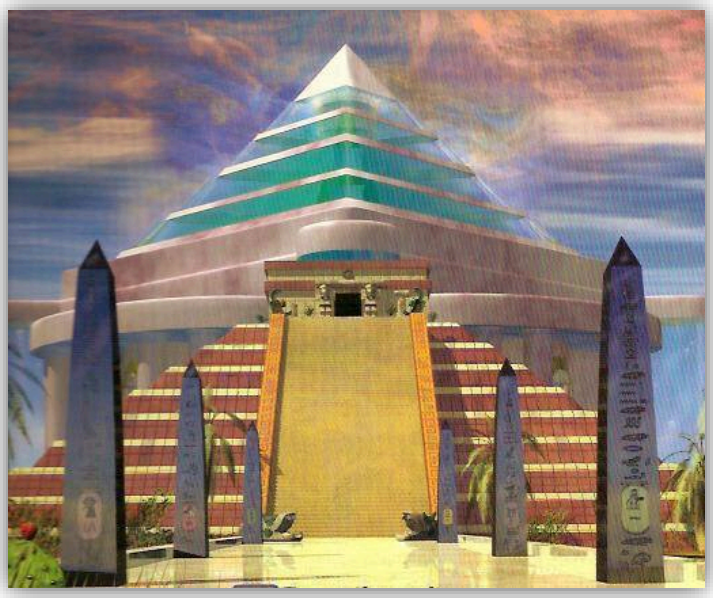
Atlantis and Crystals of the Past and Today

How Atlantis looked like:

Atlantis Crystal Power Generator Station

Atlantis was a very high crystal energies knowledge society and highly advanced spiritually. All the energy used by Atlanteans was from these huge crystal pyramids. The energies were used for their daily living, and everything else on the continent.

Atlantis and Crystals of the Past and Today



The temples were made of crystal, beautiful colors in which the Sun reflected. The temples contained huge crystals for maintaining the human's energies for being balanced and healed. The Atlanteans used the crystal generator stations and pyramid complexes in order to communicate with the stars and the Creator, and many other functions.

Back in Atlantis, the high priestesses and priests were communicating with other civilizations from our galaxy. We were not only in contact, but openly visited by them. The scout ships that had existed back in the time of Atlantis, were used for our traveling on the Atlantis continent, and were fueled by crystals.

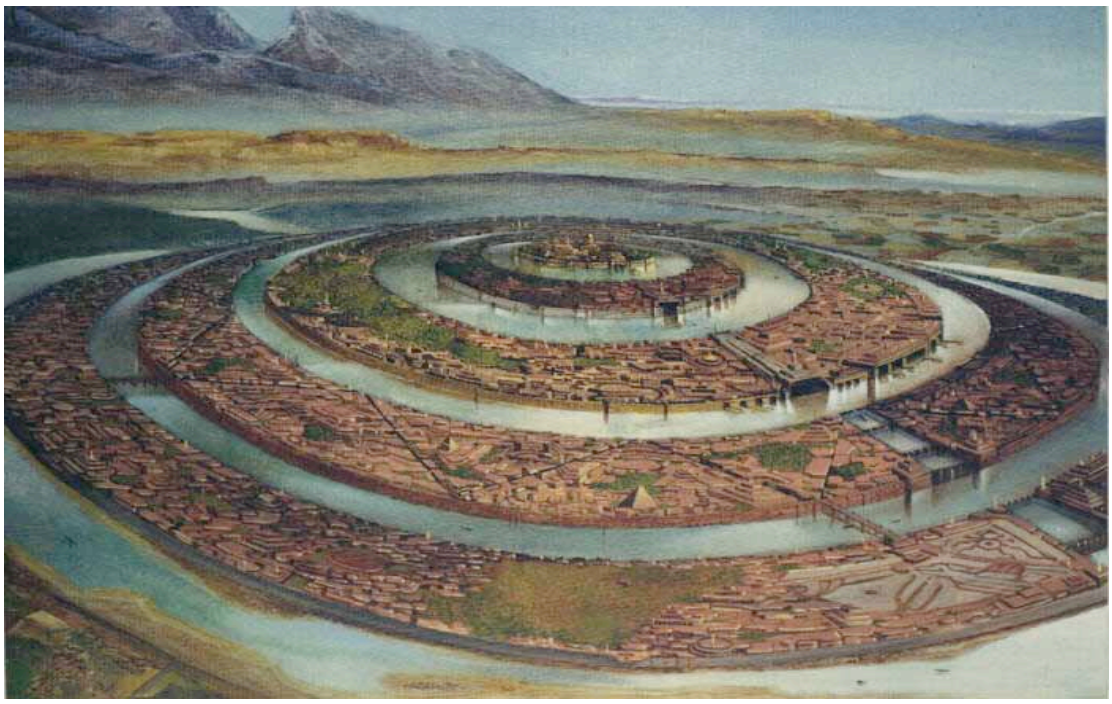
Theories About Atlantis

Plato

The Greek philosopher, Plato, introduced the story of the lost continent of Atlantis. He wrote about a land called Atlantis in two of his dialogues, Timaeus and Critias around 370 B.C. Plato stated that the continent lay in the Atlantic Ocean near the Straits of Gibraltar until its destruction 10,000 years previous. Plato described Atlantis as alternating rings of sea and land, with a palace in the center 'bull's eye'.



Theories about Atlantis mention the extensive use of crystals by Atlanteans. Crystals varied in slight, color, and frequencies. Crystals followed harmonic frequencies and could be used with an instrument that looks like a tuning fork.

Atlanteans allegedly harnessed the energies of the pyramids, using harmonics linked to crystals. Like we have the Great Pyramid at the center of the planet linked to the grid matrix that creates our reality, so too, did the Atlanteans. Their pyramid allegedly sank to the bottom of the Atlantic Ocean.

Atlantean Seed Crystals were allegedly flawless and grown as we grow flowers today.

Atlantean crystals received power from a variety of sources, including the Sun, the Earth's energy field grid system and from each other. Pyramids often mark grid points. The Atlanteans used this energy, combined with crystals, to transmit energy from one pyramid to another or, as aliens, to enter and leave the planet.

Depending on the tilt of the Earth's axis at a particular time of the year, one pyramid would function to intensify and transmit energies to other pyramids that would then act as receiving devices and would disperse energy as it was needed. The opposite would apply when that pyramid was at an unfocused point to their celestial alignment, when other pyramids would be used as transmitters. It was an intricate matrix crystal grid system.

Uses of Crystals

- Healing, childbirth, crossing over
- Meditation, awakening, increasing psychic abilities
- Increasing mental capacity and clarity of thought
- Science and technology
- Dematerialization - teleportation - telekinesis
- Magnetic force fields
- Libraries - storing records and other knowledge, much like a computer
- Botany and agriculture
- Weather Control
- Huge crystal tower power generators
- Communication - Crystals have the ability to transfer energy, to retain it, to maintain its intensity, to focus and transmit it over great distance to similar receivers as are equal or comparable to the transmitter. The larger stones, called Fire Crystals, were the central receiving and broadcasting stations, while others acted as receivers for individual cities,

buildings, vehicles and homes. On a higher spiritual level, rooms made of crystals were places where the Initiates left their bodies in the final transcendence, often never to return.

Edgar Cayce

In 1923 Edgar Cayce gave one of the most detailed descriptions of the Atlanteans use of a mysterious instrument called the Great Crystal. He said the crystal was housed in a special building which was oval in shape, with a dome that could be rolled back, exposing the crystal to the light of the sun, moon and stars at the most favorable time. The interior of the building was lined with non-conducting metal or stone, similar to asbestos or Bakelite, a thermosetting plastic.

The Crystal itself, the Tuaoi Stone, or Firestone, was huge in size, cylindrical in length, and prismatic in shape, cut with six sides. Atop the crystal was a moveable capstone, used to both concentrate-incoming rays of energy, and to direct currents to various parts of the Atlantean countryside. It appears that the crystal gathered solar, lunar, stellar, atmospheric, and earth energies, as well as unknown elemental forces and concentrated these at a specific point, located between the top of the crystal and the bottom of the capstone.

The energy was used for various purposes. In the beginning it was used as purely a spiritual tool by initiates who could handle the great energy. The early Atlanteans were peaceful people. As they developed more physical material bodies, they used the crystal to rejuvenate their bodies and were able to live hundreds of years while maintaining a youthful appearance.

Later the Great Crystal was put to other uses. Currents of energy were transmitted throughout the land, like radio waves, and powered by these, crafts and vehicles traversed the land, through the sky and under the sea at the speed of sound.

By utilization of other currents originating from the Great Crystal, the Atlanteans were also able to transmit over great distances the human voice, and pictures, like modern television. In the same manner, even heat and light could be directed to specific buildings or open arenas, giving illumination and warmth by seemingly invisible means.

In this timeline, in the Bermuda Triangle on the ocean bottom where the ruins of Atlantis now exist, the energy build-up in the sunken and damaged Fire Crystals can periodically trigger materialization of anything.

Edgar Cayce later gave its geographical location as the Caribbean, and proposed that Atlantis was an ancient, now-submerged, highly-evolved civilization which had ships and aircraft powered by a mysterious form of energy crystal. He also predicted that parts of Atlantis would rise in 1969. The Bimini Road a submarine geological formation just off

North Bimini Island, discovered in 1968, has been claimed by some to be evidence of the lost civilization (among many other things) and is still being explored today.

Tens of Thousands of years ago, when Atlantis was in its Golden Age, Emeralds were so abundant that they grew like weeds, jutting out of the earths crust. Atlanteans prized emeralds as powerful healing stones. Emeralds had the ability to strengthen the immune system, heal wounds, and restore vision along with many other medicinal uses. Supposedly emeralds were hundreds of times more powerful in the Golden Age than they are in today.

Frank Alper

In his three series books *Exploring Atlantis* states that, "Crystals played a major role in the lives of Atlanteans. Atlanteans had many subterranean tunnels which contained giant fire crystals, their main source of power. These were quartz crystals - 20 feet tall X 8 feet in diameter - three crystals set in triangular patterns. Giant copper rods conducted energies from crystals creating a grid which had various purposes. Cities were domed with force fields of energies, set into place containing the vibrations of the atmosphere to the many large buildings. A main healing temple was circular with a 60-foot diameter. The domed ceiling contained dozens of crystals that were not so much used for healing and balance to ward off illness. A Temple of Sound was used to align the body's energy centers (chakras).

The Pyramids of Atlantis were three sided and generally made of crystals. They were used as antennas to draw and amplify energies from the universe. There were about 100 of these edifices. They were set up in various triangulation patterns all over the planet. They set a global grid work of magnetic energy dividing the planet into different geographic magnetic centers -for population concentration - and to hold the planet in its orbital path.

Most of these pyramids physically do not exist any more. Those that do exist are buried in different areas. The centers where the pyramids exist energetically draw people to them for magnetic initiation - a total alignment of etheric crystalline centers for healing. Pregnant women were placed in a chamber for 24 hours where a crystal sent information of a higher frequency to the fetus.

Children remained with their parents for the first two years of their lives. They were then taken to a central compound where they lived all together with group mothers who raised the children. All of the children got to play with all of the parents every day. There was no child abuse or feelings of lack of love. At adulthood children did not have guilt to care take parents. Psychologically parents and children were far more adjusted then they are today.

People lived in communities of attached homes, their design based on the use of the building and geometric construction. The tallest building was about 12-14 stories high. Healing centers were triangular in shape. Average buildings were 2-3 stories high. Communication was telepathic, verbal, or tones. Large quartz crystals often amplified the frequencies and vibrations.

When a person was old and their body could no longer function - they would lie down and go to sleep - never to wake again. That person's soul had peace in its relationship with God and understood that the soul would return. There was no fear of death. The physical body is nothing more than a manifesting consciousness tool of the soul. It is the vehicle through which the soul expresses. When the soul is finished what it is here to do it can leave. It is within our capacity to close our eyes and for the soul to leave. There is no reason to have prolonged illness and suffering. That is just part of the soul's fear of leaving.

"The source of power for Atlantis was generated and utilized through the use of crystals. Not crystals such as we know now, but manufactured-or grown- natural crystals produced through artificially forced growth and creation, but as pure as the natural product.... The crystals were cut and polished. They were totally symmetrical and absolutely flawless in quality."

Frank Alper goes on to say that the crystals were in every color imaginable, giving each of them specific qualities and vibrations of energy to be utilized. One of the types of crystals that he mentioned being utilized the most in Atlantis was 'Pink Crystals.' He said of them, *"The pink was chosen for these particular crystals to soften, but not weaken the great potential of energy that they produced. Its effect was like striking someone with a sledgehammer while patting them on the head to comfort them."* Utilizing crystals with a pink hue can have the potential to heal advanced cases of disease, while soothing the diseased organ and tissue, not causing any additional pain.

One of the other types of Atlantean crystals used was the 'Red Ruby Crystals. *"The red ruby crystal was generally utilized in the healing of diseases that have characteristics of spreading mass infections, such as cancers and blood diseases, where great power is needed in a short amount of time.... Part of the purpose of the red crystal is to maintain the balance of vibrations and to assist within the grounding, by maintaining the polarity of the fields of energy. This in itself assists in one's growth. The raw power of the red ray is not specifically designed for spiritual growth alone."*

It is believed that these energies of Atlantean crystals will be recreated in our own time for similar purposes, especially in the hands of those whom were Atlantean crystal healers, and crystal magicians in past lives.

The Fall of Atlantis

As the story goes ... the people of Atlantis had many warnings before the continent sank (the Atlantean program ending). Prior to closure, crystals were allegedly used to store information that would be found in our timeline by those who programmed them. These crystals contained the original star codes for the Atlantean program. Once found, the crystals would be used as a means of helping them remember. But if all is happening in the NOW, than we are in a parallel situation, though Atlantis seems like thousands of years ago. Our souls are experiencing in both grid programs simultaneously and the crystals are our spiraling DNA moving consciousness between realities to experience and learn.

Where is Atlantis?

Some say it's in the Caribbean, some say at the South Pole, while others say it never existed at all. Most of these places have had some investigating and skeptics have tried to discredit them. It is still interesting to see the theories and discoveries.

Nowhere

Many historians and mainstream scholars consider the story of Atlantis just that - a story. This point of view is explained in an article entitled "Atlantis, Again" on N.S. Gill's Ancient/Classical History section of About.com. "Given Plato's concern for good government and an ideal image of Athens of old," writes the article's author, Aulus, "it is very clear that this is a parable regarding the need for virtuous government and rulers. Of the few other ancient mentions of Atlantis, all are but commentaries on Plato's tale... We all would like to think that somewhere, some time there was or is or will be a nice utopia. Unfortunately, that's all Atlantis ever was, a tale of utopia."

The West Indies or Bahamas

The Bahamas is an independent state in the long string of beautiful islands known as the West Indies just east of Florida. This area is favored by many as the last remnants of Atlantis primarily due to a 1932 "reading" by Edgar Cayce, the famous "Sleeping Prophet." In this reading, Cayce said that evidence for Atlantis could be found as far east as the Pyrenees and Morocco and as far west as the Yucatan, in Mexico. The Bahamas, however, might be the best place to look:

There are some protruding portions... that must have at one time or another been a portion of this great continent. The British West Indies, or the Bahamas, are a portion of same that may be seen in the present. If the geological survey would be made in some of these especially, or notably in Bimini and in the Gulf Stream through this vicinity, these may be even yet determined.

One of the most often-cited "proofs" of the accuracy of Cayce's prediction was the discovery in 1969 of enigmatic stone formations beneath the ocean at Bimini in the Bahamas. Although skeptics claim that the geometric, adjoined stone slabs are completely natural formations, believers suspect that the stones were once part of a great Atlantean roadway or temple.

Atlantis and the Bermuda Triangle Crystal relates one incredible story about a discovery made by Dr. Ray Brown in 1970 while scuba diving near the Bari Islands in the Bahamas. Brown claims that he came upon a pyramid-like structure with a smooth, mirror-like stone finish. Swimming inside, he found the interior to be completely free of coral and algae, and was illuminated by some unknown light source. In the center was a sculpture of

human hands holding a four-inch crystal sphere, above which was suspended a red gem at the end of a brass rod. Brown says he took the crystal, which allegedly has strange, mystical powers. "People have felt breezes or winds blowing close to it," the article says. "Both cold and warm layers surround it at various distances. Other witnesses have observed phantom lights, heard voices or felt strange tingling sensations surrounding it."

Antarctica

This relatively recent theory holds that Antarctica is Atlantis. Those who subscribe to this theory say that Antarctica wasn't always the ice-covered land at the bottom of the world, as it is today. The continent was once a tropical land situated on the Earth's equator, but was shifted to the South Pole due to a slippage of the planet's crust. This theory is described in great detail, with photos and maps, at Atlantis and the Earth's Shifting Crust. One of their main pieces of evidence is an alleged ancient Egyptian map of Atlantis, said to be published in a book by a German Jesuit priest in 1665. The map depicts "Atlantis" between the Americas and Africa (look at a globe from the bottom and Antarctica is indeed situated between South America and Africa). More intriguing, however, is the shape of Atlantis in this supposedly ancient map: it corresponds almost exactly to the

shape of the land beneath all the ice of Antarctica - a shape that wasn't known until 20th century satellite imaging!

Mexico

Gene D. Matlock is one researcher who believes we should be conducting the search for Atlantis in the Yucatan region of Mexico. Matlock cites place names as one of the compelling proofs:

He also cites an ancient, spiral-shaped harbor with high banks or dikes lining the channels that once existed near San Lorenzo Tenochtitlán, Mexico. This layout is very much like that described by Plato for Atlantis's great port city.

The Celtic Shelf

The Celtic Shelf is the continental shelf surrounding much of England. This area, currently underwater, was actually above water during the last ice age, over 10,000 years ago. It is here, according to a theory by Viatcheslav Koudriavtsev, a Russian researcher in his article, "Atlantis: A New Hypothesis," that artifacts from the lost Atlantis might be found. "Plato's geographical descriptions of Atlantis correlate with sufficient precision with the actual paleogeographic situation at the time he specified: in the Atlantic Ocean," he writes, "outside the Mediterranean Sea, there must have really existed land, where there was a plain adjoining the coast of approximately the same size as described by Plato. The verification of this hypothesis can be effected by organizing an expedition for underwater exploration on the Celtic Shelf, in particular, in the Little Sole Bank area."

An Exploded Planet

This is probably one of the most controversial theories about the location of Atlantis - outer space. Alan Alford makes the case that Atlantis was not an island, continent or any other terrestrial landform, but a planet circling our sun. Alford goes back to Atlantis's Egyptian roots (Plato is said to be retelling the story of Solon, who in turn told the stories that he had heard during his trip to Egypt) and his interpretation of Egyptian legends to include a neighbor planet that blew up in some ancient era. This doomed planet may have been, in fact, the home of the technologically advanced Atlanteans. "This example of Atlantis," Alford writes, "illustrates how the implications of an exploded planet cult in ancient Egypt extend well beyond the boundaries of Egyptology itself, leading to a radical reappraisal of the so-called 'gods,' which came down from heaven to Earth. The identification of these gods (the Anunnaki, the Nephilim, the Builder Gods of Edfu, for example) as meteoric planetary fragments inevitably begs the question of whether God, the Son of God and the angels of God are also echoes of this ancient and profound inter-planetary creation cult."

Off the Coast of Cuba

In May, 2001, an astounding discovery was made off the coast of Cuba. An ocean engineer named Paulina Zelitsky, while conducting ocean sonar research for Advanced Digital Communications, imaged something she could hardly believe. She told a reporter for Reuters: ""We are the first people ever to see the bottom of Cuban waters over 50 meters. It's so exciting. We are discovering... even possibly a sunken city built in the pre-classic period and populated by an advanced civilization similar to the early Teotihuacan culture of Yucatan."

Incredibly, the sunken city lies on the floor of the ocean at a depth of about 2,200 feet! It must therefore be a quite ancient civilization indeed! Zelitsky said that the sonar revealed a "huge land plateau with clear images of what appears to be urban development partly covered by sand. From above, the shapes resemble pyramids, roads and buildings."

This is an incredible and potentially history-altering discovery. And it was made not by some lone diver or amateur organization. Scientists made this find. And today no less an organization than the National Geographic Society has become involved and is investigating the site.

As a side note, this was in 2001, she has tried to raise money to return to the site for excavation. The site is so far down that it is very difficult to get to. Many say the pictures were altered or not as she says. She was widely discredited. The investigation was dropped it also may have been political with Cuba. Someday it might be reopened.

Hypothesized locations of Atlantis in the Mediterranean.

Arkansas Crystals

I was inspired to write this paper by Ray, David's man who makes the chairs etc. As I write this he is moving to Arkansas to have a larger space to create in. He mentioned that he was excited to move there for the power of the Atlantean Crystals and the things he could design with them. I am really interested to see his results.

We are beginning to use Arkansas Crystals in some of our pyramids. Since living so close to the Mt. Ida mines we realize just how powerful these crystals are. So what makes ARKANSAS QUARTZ CRYSTAL so special? According to Edmund Harold in "Focus on Crystals" "The closer crystal formations lie to the magnetic core of the planet, the greater their magnetic field. All quartz mined in areas such as Arkansas in the United States (a region which is extremely close to that core) emit powerful electromagnetic energies, and this area currently provides the purest quartz crystal known to mankind."

Arkansas is the largest deposit of natural quartz crystal in the northern hemisphere, and the second largest deposit in the world, second only to Brazil. But it is the largest unsegmented, continuous deposit on the planet, and contains the most resonant crystals. Programmed crystals from the Law of One. The quartz deposits in Arkansas begin in the area of Little Rock and extend in a massive western curve for over 170 miles, with a width of 35-40 miles. Arkansas also contains unique combinations of magnetic minerals, aquifers and a diamond deposit, which work synergistically with the quartz. Because of this blend of energies, the Crystal Vortex of Arkansas is the most powerful in terms of the potency and utility of its vortexial-portal field. [1]
